# ALESSIO TAMPONE

Turin, IT - +39 3517939790 - alessiotampone.design@hotmail.com - Portfolio - Linkedin

Experienced **Product Designer** with a strong track of record in designing and delivering B2C digital products across Fintech, Automotive, and Enterprise SaaS. Proven ability to lead projects through all phases, from research and ideation to design and final hand off. Expertise in working with large, complex design systems, apply atomic design methods, and create high fidelity design and prototypes, and influence product and business strategies through data-driven insights. Adept at collaborating cross-functionally with engineers, product teams, and executives to drive UX/UI enhancement across multiple projects. Proficient in Figma, and committed to staying at the forefront of UX and UI trends and technologies to deliver impactful solutions aligned with organisational goals.

## PROFESSIONAL EXPERIENCE

### Alten - Turin, IT - Product Designer - Nov 2023 - Present

- **Redesigned a vehicle management mobile app**, restructuring navigation and information architecture across 20+ screens to simplify key driver tasks and create a more intuitive experience.
- **Reworked the UX of an error management SaaS platform,** simplifying complex troubleshooting workflows and reducing interaction complexity across core error-resolution journeys.
- **Partnered with DesignOps to build and scale a token-based design system** for a leading European luxury carmaker, establishing 160+ reusable components and design tokens to improve UI consistency and streamline design-to-development handoff. Ensured high accessibility standard WCAG across all design content generated.
- **Owned multiple end-to-end features for major European carmakers,** taking 6+ features from discovery to production-ready UI, including research, ideation, prototyping, validation, and stakeholder alignment.

### Tata Consultancy Services - London, UK - UX/UIDesigner - Sep 2022 - Nov 2023

- **Led the end-to-end design of a complete user flow for a banking MVP,** delivering 40+ screens and a scalable design system from discovery and ideation through prototyping, testing, and final delivery.
- **Led competitive benchmarking and journey mapping for a top-3 UK bank,** synthesizing insights and presenting ux recommendations to the management team to inform product and UX strategy.
- **Improved an EU rail company's web app usability by 20%** through heuristic evaluation, user research, and A/B Testing, translating findings into targeted UX improvements.

### AutoGest SRL - Remote - Product Designer - Jan 2022 - Jun 2022

- Facilitated workshops and created user journeys to optimize internal dashboards and tools.
- Applied UCD to CRM software, reducing errors by 15% and increasing engagement by 10%.
- Improved user flows with research and analytics, cutting errors by 30% and aligning outcomes with SCRUM teams.

### TesYouth - London, UK - UX Designer - May 2020 - Apr 2021

- Delivered data-driven insights to guide product strategy and design decisions.
- Translated market and user data into actionable design improvements, boosting alignment by 20%.
